TROY Locking Printers
Protect Your Valuable Stock.

Who's it for?

Ideal for organizations with **printers in open areas that are accessible to multiple people** including patients, customers, or even employees.

Implementing a locking printer solution can drastically **reduce the risk for corruption, fraud, or forgery.**

Prevent Theft

Protect important security stock such as checks/money orders, diplomas, vital records, and other high-value paper.
Minimize Financial Loss

Small, proactive steps now reduce your risks of financial loss down the road.

Protect Your Reputation

Prevent fraud that could surely harm your reputation far faster than you built it.

Custom-fit Locking Paper Trays

Locks are engineered to fit each specific printer model. With three variations to choose from, you can meet unique processes of your office.
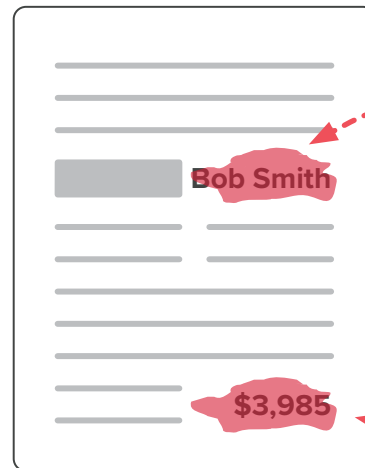

Standard   **Barrel**   **Combination**

Bob Smith

$3,985

Patented Anti-tamper Security Agent

Protect senstive data such as names and amounts on any document.

Metal Tray Shielding

Rugged sheet metal prevents access to the back of the printer. This second protective layer is necessary to prevent alternative methods of paper theft.

Security Toner*

Protect the document after it's been printed with **The World's Most Fraud Resistant Toner.**

The secret is a patented anti-tamper security agent which releases a red dye if chemical alteration is attempted, rendering the altered document null and void.

*Alternative - Choose this option at the time of purchase.
