

TROY Locking Printers Protect Your Valuable Stock.

Who's it for?

Ideal for any businesses where printers are used to print high value documents and multiple people have access.

TROY locking printers substantially reduce chain of custody vulnerabilities associated with high value stock

Prevent Theft

Protect important security stock such as checks/money orders, diplomas, vital records, and other high-value paper.

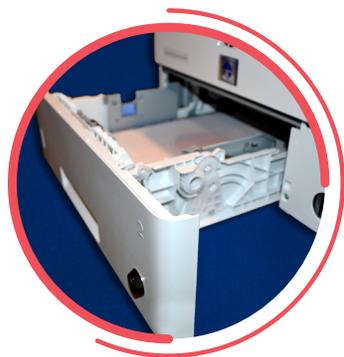

Minimize Financial Loss

Small, proactive steps now reduce your risks of financial loss down the road.

Protect Your Reputation

Prevent fraud that could surely harm your reputation far faster than you built it.

Custom-fit Locking Paper Trays

Locks are engineered to fit each specific printer model. With three variations to choose from, you can meet unique processes of your office.

Standard

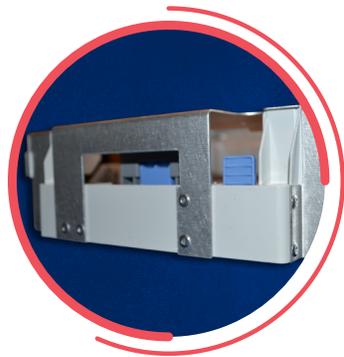

Barrel

Combination

Metal Tray Shielding

Rugged sheet metal prevents access to the back of the printer. This second protective layer is necessary to prevent alternative methods of paper theft.

Add Security Toner For a Complete Document Security Solution

Protect the document after it's been printed with **The World's Most Fraud Resistant Toner.**

The secret is a patented anti-tamper security agent which releases a red dye if chemical alteration is attempted, rendering the altered document null and void.

Patented Anti-tamper

Protect sensitive data such as names and amounts on any document.
